

Questionnaire Granulocyte antibodies

In order to give a thorough evaluation of granulocyte immunology respectively antibodies, a sample of clinical data is required (please see the enclosed protocol). **For future requests of granulocytic antibodies we kindly ask you to provide the completed protocol.**

Patient-number:

Clinical diagnosis:

- first diagnosed:
- other relevant preexisting conditions:

Current or preceding infection?

Medication?

Clinical findings

- Spleen:
- Lymph nodes:
- Liver:
